

City of Brigantine
Office of Emergency Management

City officials have been closely monitoring the Covid-19 Virus. We have had meetings with school officials and contingency plans have been established. There are several precautions that city residents can take to protect themselves. The attached fliers explain what you can do to help protect yourself.

If you suspect that you are experiencing symptoms of Covid-19 and you feel the need to call 911, please let the dispatcher know that you are experiencing these symptoms, and if you feel that you were in recent contact with someone who may have contracted the Covid-19 virus. Also advise dispatch if you have recently traveled out of the country.

Brigantine Emergency Response personnel have been trained in responding to these types of situations and are constantly updating their procedures as this incident progresses.

If you have any questions or concerns, you can call the NJ Coronavirus & Poison Center Hotline at 1-800-222-1222 or 1-800-962-1253
