ANSWERS TO QUESTIONS:

Question 2 from Lexa Concrete, LLC dated November 7, 2022: Item 49 is missing thickness in both BID SHEET & SPECS.

Response to Question 2: That is correct. Topsoil material is supplied under Item #50 “Borrow Topsoil” and the work to spread the topsoil is paid under Item #49 Topsoil Spreading, _” thick”. The thickness of the topsoil for standard turf is provided on Sheet EP-1 which indicates 5” (unsettled), and the thickness for perennial planting beds is 6” as indicated on Sheet CD-3 Perennial Planting Detail.

Question 3 from Lexa Concrete, LLC dated November 7, 2022: Item 53 SMALL DECIDUOUS TREE, 3-3 1/2" caliper...3-3 1/2" cal. tree is a LARGE deciduous tree. (relevant?)

Response to Question 3: The term “Small Deciduous Tree” is based on NJDOT pay items, and we agree that the term is subjective. Make sure base your bid on the Plant List on sheet CD-3, which is also provided below.
