Acrylic is the perfect medium to try in order to create vibrant landscapes, still life and abstract paintings. In class you will learn the foundations of working with the painting in thin layers like watercolors or in thicker, more opaque applications like oil paint. Since acrylic paint dries quickly, it can be painted over many times until the artist is satisfied with the results. The paint can be diluted and cleaned with water, making it simple to use and odorless. We will learn about the setup and materials, color mixing and pigment choice, brush-handling and palette-knife techniques. All adults are welcome whether you are a beginner or an experienced artist.
