

Atlantic-Cape Multi-Jurisdictional Program for Public Information

**June 2017
2024 Annual Update**

Prepared by:
Paul Dietrich, PE CFM
City of Cape May
pdietrich@capemaycity.com

This report will serve as an update to the December 2017 Atlantic-Cape Multi-Jurisdictional Program for Public Information (MJPPI). This update covers public outreach documented by the Municipal Members of the MJPPI and our stakeholders during 2023. We added the Community of City of Brigantine to the MJPPI in 2023.

The PPI held two PPI committee meetings for the 2023 update, December 7, 2023 and June 6, 2024 (Appendix B). Discussions were held about enhancing stakeholder outreach and reminding municipal members that they needed to continue their outreach. All municipal members (Appendix C) and stakeholders were present. Each municipal member has documented the outreach they completed in 2023 and have updated their outreach they anticipate completing in 2023 (Appendix E). Each municipal member has presented this annual update to their governing body (Appendix G).

Municipal members of the MJ PPI

Municipal	County	CRS Class
Avalon	Cape May	3
Brigantine (new)	Atlantic	5
Cape May City	Cape May	5
Cape May Point	Cape May	6
Egg Harbor Township	Atlantic	5
Linwood	Atlantic	5
Longport	Atlantic	5
Margate	Atlantic	5
North Wildwood	Cape May	6
Ocean City	Cape May	4
Sea Isle City	Cape May	3
Stone Harbor	Cape May	5
Upper Township	Cape May	5
Ventnor	Atlantic	5
Wildwood Crest	Cape May	6
Wildwood	Cape May	5

The PPI Committee plans to increase participation of regional stakeholders in the MJ PPI. Current stakeholders include:

- *The Press of Atlantic City*
- *Ocean First Bank*
- *Cape May County Association of Realtors*
- *Thomas H. Heist Insurance Agency*
- *South Jersey Gas*

- *NJ Coastal Coalition*
- SJ Hauck Construction LLC/ International Assoc. of Structural Movers
- Longport Media
- Insurance Promotion Stakeholders
 - Thomas Heist Insurance Agency
 - Brown & Brown of New Jersey, LLC
 - McMahon Insurance
 - Risk Reduction Plus

Stakeholder outreach for 2023 is documented in Appendix F.

The PPI Committee completed a Program for Flood Insurance Promotion (CRS Activity 370) and submitted it to FEMA on July 15, 2020. We have updated the CRS Activity 370 to implement new activities that are shown in the 2021 CRS Manual update. Each town has adopted an updated resolution committing to the new activities.

At the June 6, 2024, the PPI Committee meeting the stated goals, objectives, outcomes, priority audiences and outreach topics were discussed. Members agreed that the goals, objectives, outcomes, outreach topics and audiences do not need to be changed at this time. Member municipalities have made some minor changes in the outreach projects and updated outreach is included in Appendix D. Changes were made to outreach project based on individual municipal funding or change of direction from governing body.

Insurance summaries were not updated this year and 2023 data is presented. Summaries are aggregated by community and included in Appendix I (FEMA has limited the amount of data) . The claims summary shows that the past year was not active for flooding events in our region.

2023 Claims Summary

Community Name (Number)	Number of Losses	Net Building Payments	Flood Zone
AVALON, BOROUGH OF (345279)	1	\$0	AE
AVALON, BOROUGH OF (345279)	1	\$1,322	AE
EGG HARBOR, TOWNSHIP OF (340007)	11	\$591,328	AE
EGG HARBOR, TOWNSHIP OF (340007)	1	\$0	AE
GALLOWAY, TOWNSHIP OF (340008)	1	\$0	C
NORTH WILDWOOD, CITY OF (345308)	1	\$1,105	AE
OCEAN CITY, CITY OF (345310)	3	\$0	AE
SEA ISLE CITY, CITY OF (345318)	3	\$0	AE
SEA ISLE CITY, CITY OF (345318)	1	\$3,076	AE
UPPER, TOWNSHIP OF (340159)	4	\$16,032	AE

Each municipality maintains a presence on the Web and has a page dedicated to resources about the hazards of flooding and flood insurance (Appendix H)

Municipalities have noticed that more people are aware of flooding issues in their area and that more flood related construction is occurring. Flood related construction includes municipal projects like raising roadways and bulkheads or constructing stormwater pumps and private projects like house raising.

Goals

- Ensure that those affected by flooding are aware of risks;
- Coordinate municipal efforts to increase flood awareness;
- Inform residents of tools that their local government offers to prevent injury and property damage from flooding; and
- Engage in floodplain management activities that protect and bolster economic activity.

Objectives

1. Inventory the region's flood hazard and flood response efforts;
2. Determine flood insurance coverage within the region
3. Examine gaps and opportunities in awareness about flood hazard;
4. Develop outreach activities about flooding for members of the community
5. Prepare materials that can be used to educate the community about flood risk;
6. Maintain flood protection outreach efforts in perpetuity and update these efforts as issues arise;
7. Maximize participation in the NFIP and CRS to provide flood insurance premium discounts to policyholders within the region; and
8. Publicize the participating municipalities' services about flooding.

Priority Audiences

1. Properties Located in the SFHA
2. Senior Citizen Population
3. RL/SRL Properties
4. Seasonal Residents and Potential Homebuyers
5. Properties Located Just Above the SFHA
6. Real Estate, Lending, and Insurance Companies
7. Building Contractors, Architects, Surveyors, and Engineers
8. New Resident/Property Owners
9. The Entire Community

Priority Outreach Topics

1. Know your flood hazard
2. Insure your property for your flood hazard
3. Protect people from the hazard
4. Protect your property from the hazard
5. Build responsibly
6. Protect natural floodplain functions

Additional Outreach Topics

7. Protection and Assistance are readily available for your community
8. Be prepared for future flooding events
9. Don't wait until it's too late
10. Funding is available for your home repairs

APPENDIX A

New Member Information

New Communities, CRS savings, CRS class, number of NFIP policies

Municipality	County	Total Number of NFIP Policies	CRS Class Ranking	CRS Savings
Brigantine	Atlantic	5294	5	25%

NFIP policy types

Municipality	Total	SFHA	X-STD/AR/A99	PRP
Brigantine	5,294	3323	160	0

Flood Insurance Policies by Zone

Brigantine	Policies in Force	Premium	Insurance in Force
A01-30 & AE, A Zones	5,132	\$3,122,409	\$1,240,904,000
B,C, and X Zones (Standard)	160	\$90,116	\$46,776,000
B, C, and X Zones (Preferred)			

Flood Insurance Values

Municipality	Policies in Force	Premium	Insurance in Force	Number of Closed Paid Losses	\$ of Closed Paid Losses	Adjustment Expense
Brigantine	5294	\$3,214,083	\$1,288,180,000	4223	\$99,860,750	\$4,734,942

Number of NFIP Policies

Municipality	Single Family	2-4 Family	All Other Residential	Non Residential	Total
Brigantine	2,762	956	\$1,552	24	5,294

Number of NFIP Policies in the SFHA compared to Building Count

Municipality	Total Number of Policies in the SFHA	Building Count in the 1983 SFHA
Brigantine	5,134	5,121

APPENDIX B

Meeting Minutes

2023 Annual Update Meeting for Atlantic-Cape MJPPI

December 7, 2023
Host: Irish Pub, AC
And Virtual Zoom Meeting

Agenda

- ▶ Attendance of participating Municipalities
- ▶ Attendance of Stakeholders
- ▶ Update Process
- ▶ Review our Goals, Objectives, Audiences and Outreach Topics
- ▶ What the Stakeholders did in 2023
- ▶ What we are asking our Stakeholders for in 2024
- ▶ Flood Insurance Promotion
- ▶ Next steps

Participating Municipalities

Municipality	Public Members	Alternate Public Members	Private Members	Alternate Private Members
Avalon	Richard E. Dean	Scott Wahl Frank Bruton	William Burns	Miriam Kautermann
Cape May City	Jason Dilworth	Paul Dietrich	Kate Wyatt	James Chaney
Cape May Point	Anita Van Heeswyck	Paul Dietrich	Emelia Oleson	Gary Miller
Egg Harbor Township	Pat Naticchione		Anthony D'Alicandro	Eugene Sharpe
Linwood	Leigh Ann Napoli		Jim Galantino	
Longport	Bruce Funk		Sean O'Leary	
Margate	Jim Galantino		Mike Cristaldi	
North Wildwood	Joseph Babore	Kyle Rutherford	Ronald Simone	
Ocean City	Benny R. Tafoya	Patrick Newton	Thomas Heist IV	Mike Contino
Sea Isle City	Cornelius Byrne	Mariah Rodia Kathy Custer	Robert Boyle	Mark J. Gibson
Stone Harbor	Ray Poudrier	Robert Smith Kim Stevenson	Sam Wierman

Ventnor (New)				
Wildwood Crest	Rick Allen	Constance Mahon	Louis Belasco	

Participating Stakeholders

- ▶ *The Press of Atlantic City*
- ▶ *Ocean First Bank*
- ▶ *Cape May County Association of Realtors*
- ▶ *Thomas H. Heist Insurance Agency*
- ▶ *South Jersey Gas*
- ▶ *NJ Coastal Coalition*
- ▶ *SJ Hauck Construction LLC/ International Assoc. of Structural Movers*
- ▶ *Longport Media*

Participating Insurance Stakeholders

- ▶ *Thomas H. Heist Insurance Agency*
- ▶ *Brown & Brown of New Jersey, LLC*
- ▶ *McMahon Insurance*
- ▶ *Risk Reduction Plus*
- ▶ *J. Byrne Insurance*

Update Process

- ▶ Required attendance at two MJPPI meetings
- ▶ Participation at other monthly MJPPI meetings
- ▶ Submit update info by April 2024
 - ▶ Update outreach spreadsheets
 - ▶ Website check
 - ▶ Flood Insurance Outreach and Public Meeting
- ▶ Submit Annual Update to FEMA/ISO

Next Steps

- ▶ What's new for 2024
 - ▶ Outreach publication by Stakeholders
 - ▶ MJPPI workshops in Spring & Fall

2024 Annual Update Meeting for Atlantic-Cape MJPP

June 6, 2024

Host: Cape May City

Agenda

- ▶ Attendance of participating Municipalities
- ▶ Attendance of Stakeholders
- ▶ Update Process
- ▶ Review our Goals, Objectives, Audiences and Outreach Topics
- ▶ What the Stakeholders did in 2023
- ▶ What we are asking our Stakeholders for in 2024
- ▶ Flood Insurance Promotion
- ▶ Activity 330 - Cycle Visit
- ▶ Next steps

Update Process

- ▶ Required attendance at two MJPPI meetings
- ▶ Participation at other monthly MJPPI meetings
- ▶ Update outreach spreadsheets
- ▶ Website check
- ▶ Flood Insurance Outreach and Public Meeting
- ▶ Towns must submit the update document to Governing body
- ▶ Submit Annual Update to FEMA/ISO

Goals

- ▶ Ensure that those affected by flooding are aware of risks;
- ▶ Coordinate municipal efforts to increase flood awareness;
- ▶ Inform residents of tools that their local government offers to prevent injury and property damage from flooding; and
- ▶ Engage in floodplain management activities that protect and bolster economic activity

Objectives

1. Inventory the region's flood hazard and flood response efforts;
2. Determine flood insurance coverage within the region
3. Examine gaps and opportunities in awareness about flood hazard;
4. Develop outreach activities about flooding for members of the community

Objectives

5. Prepare materials that can be used to educate the community about flood risk;
6. Maintain flood protection outreach efforts in perpetuity and update these efforts as issues arise;
7. Maximize participation in the NFIP and CRS to provide flood insurance premium discounts to policyholders within the region; and
8. Publicize the participating municipalities' services about flooding.

Priority Audiences

1. Properties Located in the SFHA
2. Senior Citizen Population
3. RL/SRL Properties
4. Seasonal Residents and Potential Homebuyers
5. Properties Located Just Above the SFHA
6. Real Estate, Lending, and Insurance Companies
7. Building Contractors, Architects, Surveyors, and Engineers
8. New Resident/Property Owners
9. The Entire Community

Priority Outreach Topics

1. Know your flood hazard
2. Insure your property for your flood hazard
3. Protect people from the hazard
4. Protect your property from the hazard
5. Build responsibly
6. Protect natural floodplain functions

Additional Outreach Topics

- 7. Protection and Assistance are readily available for your community
- 8. Be prepared for future flooding events
- 9. Don't wait until it's too late
- 10. Funding is available for your home repairs

Possible change for #10 - Electricity & Water don't mix

12/20/2019 Status of OP's

- OP#4

Web Site revised -

we went with Forerunner CRS software, keeps us on track for when CRS activities due, revised web page flood info 101
- OP#5

Safety Bags -

dropped
- OP#6

Town Topics -

revised/rebranded from mail out version to available only on our web site, renamed "The Borough Buzz" TBC
- OP#9

Social Luncheons -

on hold - mold remediation Borough Bldg
- OP#14

Storm Ready Mag -

duplicate/dropped
- OP#18

Farmers Market -

dropped
- OP#20

Web Site -

duplicate/dropped

RE: Flood Insurance Promotion Meeting

Dear Resident:

The Cape May City is expanding its public outreach to residents in and adjacent to the Flood Hazard Area. Currently residents receive a 25% discount on flood insurance rates since our community is Class 5 in the Community Rating System (CRS). This rating is based on the various activities that the Community does. Buildings located in the Flood Hazard Area are required to have Flood Insurance. Buildings being insured help our town respond quicker after a flooding event. If you have a federally backed mortgage you are required to have Flood Insurance. Please read the attached brochure that explains more about Flood Insurance. I encourage you to carry Flood Insurance to help protect your home.

We will hold a meeting on November 2nd at City Hall at 4:00PM. The meeting is being sponsored by Flood Risk Evaluator (FRE). We will have insurance agents, engineers and our floodplain manager in attendance to help review your documentation to make sure your home is being rated accurately. There is no cost or obligation to change your insurance as part of this review.

Please bring your elevation certificate, flood insurance declaration page and two pictures of the exterior of your home. We hope to see you at the meeting on November 2nd. If you can't make this meeting, please try to attend one of the other sponsored meetings held throughout the year.

If you have any additional questions, please reach out to our floodplain manager, Paul Dietrich at 609-884-9537.

Very truly Yours,

Zack Mullock
Mayor

The Mandatory Purchase of Flood Insurance Requirement

NFIP: This community participates in the National Flood Insurance Program (NFIP) which makes federally backed flood insurance available for all eligible buildings, whether they are in a floodplain or not. Flood insurance covers direct losses caused by surface flooding, including a river flowing over its banks, a lake or ocean storm, and local drainage problems.

The NFIP insures buildings, including mobile homes, with two types of coverage: building and contents. Building coverage is for the walls, floors, insulation, furnace, and other items permanently attached to the structure. Contents coverage may be purchased separately, if the contents are in an insurable building.

Mandatory Purchase Requirement: The Flood Disaster Protection Act of 1973 and the National Flood Insurance Reform Act of 1994 made the purchase of flood insurance mandatory for Federally backed mortgages on buildings located in Special Flood Hazard Areas (SFHAs). It also affects all forms of Federal or Federally related financial assistance for buildings located in SFHAs. The SFHA is the base (100-year) floodplain mapped on a Flood Insurance Rate Map (FIRM). It is shown as one or more zones that begin with the letter "A" or "V."

The requirement applies to secured mortgage loans from financial institutions, such as commercial lenders, savings and loan associations, savings banks, and credit unions that are regulated, supervised or insured by Federal agencies such as the Federal Deposit Insurance Corporation and the Office of Thrift Supervision. It also applies to all mortgage loans purchased by Fannie Mae or Freddie Mac in the secondary mortgage market.

Federal financial assistance programs affected by the laws include loans and grants from agencies such as the Department of Veterans Affairs, Farmers Home Administration, Federal Housing Administration, Small Business Administration, and the Department of Homeland Security's FEMA.

How it Works: Lenders are required to complete a Standard Flood Hazard Determination (SFHD) form whenever they make, increase, extend, or renew a mortgage, home equity, home improvement, commercial, or farm credit loan to determine if the building or manufactured (mobile) home is in an SFHA. It is the Federal agency's or the lender's responsibility to check the current Flood Insurance Rate Map (FIRM) to determine if the building is in an SFHA. Copies of the FIRM are available for review in most local government building or planning departments. Lenders may also have copies or they may use a flood zone determination company to provide the SFHD form.

If the building is in an SFHA, the Federal agency or lender is required by law to require the recipient to purchase a flood insurance policy on the building. Federal regulations require building coverage equal to the amount of the loan (excluding appraised value of the land) or the maximum amount of insurance available from the NFIP, whichever is less. The maximum amount available for a single-family residence is \$250,000. Government-sponsored enterprises, such as Freddie Mac and Fannie Mae, have stricter requirements.

The mandatory purchase requirement does not affect loans or financial assistance for items that are not covered by a flood insurance policy, such as vehicles, business expenses, landscaping, and vacant lots. It does not affect loans for buildings that are not in an SFHA, even though a portion of the lot may be.

While not mandated by law, a lender may require a flood insurance policy, as a condition of a loan, for a property in any zone on a FIRM.

If a person feels that an SFHD form incorrectly places the property in the SFHA, he or she may request a Letter of Determination Review from FEMA. This must be submitted within 45 days of the determination. More information can be found at http://www.fema.gov/plan/prevent/fhm/fq_gen11.shtm.

We have partnered with several local insurance companies through the NJ Coastal Coalition to provide technical assistance with understanding your flood insurance policy and how your premiums are calculated. You can contact

- Heist Insurance (<http://www.heistinsurance.com/>) at 609-399-0655 or
- Brown & Brown Insurance (<http://www.bbunj.com/>) at 609-390-3360 or
- McMahon Insurance (<https://mcmahonagency.com/>) at 609-399-0060 or
- Flood Rise Evaluator (FRE) (<https://yourfloordrisk.com/>) at 866-599-7066 or
- Byrne Insurance Agency (<http://www.jbyrneagency.com/>) at 609-522-3406.

Have your Elevation Certificate and your Insurance Policy with you when you call. Any other insurance companies that want to assist our community in this outreach efforts please contact NJ Coastal Coalition at acmcoastalcoalition@gmail.com.

COMBATING RISING FLOOD INSURANCE COSTS

Flooding is increasing across the US, requiring communities to examine alternatives to the cycle of repetitive flooding. The cost of the flood recovery cycle is **VERY EXPENSIVE**, not only monetarily, but everyone involved has lifetime challenges as they navigate

flood recovery. This is now compounded by rapidly rising flood insurance policy rates on all older buildings built before the first flood insurance rate map for the community. Elevation can help offset those rates *dramatically*.

FLOOD INSURANCE PREMIUMS:

WHY ELEVATE?

ENGAGES **MULTIPLE CONSTRUCTION TRADES & LABOR**

ENVIRONMENTALLY **RESPONSIBLE** the **recycling and reuse** of existing buildings results in a reduction of **TONS** of solid waste to landfills

SAVES **NATURAL RESOURCES** every 1,000 sq ft of wood frame building uses approximately **250 TREES**

PRESERVES **HISTORIC BUILDINGS**

STABILIZES THE REAL ESTATE MARKET & PROPERTY VALUES

REDUCES **RECOVERY EXPENDITURES** — every

\$1 invested in elevation **saves \$7** in recovery expenditures

PRESERVES PROPERTY TAX REVENUES which support schools & government operations, infrastructure & public safety, & bonding for public projects

KEEPS THE **COMMUNITY TOGETHER**

Tearing down homes to create green space not only results in the loss of property taxes critically needed to fund public services and schools, you lose the families that built the community. This option should often be the last alternative.

SIGNIFICANTLY REDUCES • THE **RISK OF FLOODING** • FLOOD INSURANCE POLICY **RATES**

REVERSES THE CYCLE OF FLOODING

ELEVATE

before it's too late!

International Association of Structural Movers Member:

International Association of Structural Movers

The International Association of Structural Movers (IASM) is the 501c-4 professional organization comprised of member companies involved in projects to elevate and or relocate buildings for flood hazard mitigation.

(803) 951-9304 | info@iasm.org | iasm.org

STEPS TO ELEVATION

There are three main phases in these flood hazard mitigation elevation/relocation projects: FINANCING, PLANNING / DESIGN AND IMPLEMENTATION.

FINANCING

1 EVALUATE FINANCING OPTIONS

- Are there elevation grants available? Local government will have information.
- If the property has flood insurance, the Initial Cost of Compliance (ICC) is currently a \$30,000 one-time payment to the policy holder if the home is over 50% damaged and there is a claim on the policy.
- **Small Business Administration (SBA)** — If the building is 50% or more damaged by flooding, the SBA allows up to \$200,000 in additional loan funding to elevate.
- **FHA203 K loan/mortgage** — This is a financing package available from any bank. There is a construction loan followed by a conversion into a 30-year mortgage. The total funding available is \$240,000.
- As always, cash or equity financing is the easiest for the contractors and the customer.

PLANNING / DESIGN

2 ELEVATION CERTIFICATE AND OR A LAND SURVEY (if required)
The FEMA elevation certificate is the document that establishes the current elevation and final required elevation of the building and adjacent land. It is also the form that sets the National Flood Insurance Program flood policy rates. A current land survey is required by certain communities so they can evaluate the project designs in relation to the zoning requirements like set-backs and height.

3 ENGINEERED FOUNDATION AND ARCHITECTURAL DESIGNS
The new or additional foundation must be designed in compliance with the American Society of Civil Engineers (ASCE) flood zone construction requirements; ASCE-24 & 7 are the publication numbers. The foundation work on these projects is always more than half of the project costs. In addition to the foundation structural design requirements, we need to consider what the result of the project will look like. Remember, these buildings are now built much more solid than originally and will be around for some time. The owners and the community care about this and if the building is designated historic there may be a pre-permit design review if required by community or federal funding. The site soils determine the design of the foundation, so a soil sample is the best way to go at this point. The soil strata and load bearing capacity will determine if piles or helicals will need to be driven below the new foundation. Some communities and design professionals require this testing.

4 CONTRACTOR ESTIMATES

If it is a grant program job, most states/communities require two to three estimates using the plans generated in step two. If it is a “turn key” job where the GC manages the entire project, the estimate is generated after the design phase in step three. IASM members need to carry workman’s compensation, liability and riggers/cargo/care and custody type insurance, because once the building is off its foundation the homeowner’s policy no longer covers the building and contents. The community and property owners should have a copy of your coverages.

5 CONTRACT SIGNING AND PERMITS

If the project is grant funded, there is are often additional contract documents the GC will need to sign that are approved by the community and, usually, the state. In addition, many communities are now requiring bonding to insure completion of the project. If the project is a private contract, then just your contract is sufficient. Some communities require a beam/crib design be submitted as part of the permitting processes. The permitting authority will review the plans, note any needed plans changes and issue a construction permit.

IMPLEMENTATION

6 UTILITY DISCONNECTS / PREPARE STRUCTURE FOR ELEVATION
Once the permits are in place, portable toilets are on site and any fencing required by local government is installed, any vegetation salvage needs to be accomplished. Then bracing of the building and or porches, in addition to stair removal, needs to be done. If the building is brick clad, many companies remove the brick and later install siding. If there is a brick edge incorporated in the slab, then the brick façade can be elevated with the building. Utilities preparation is different in every community. Make sure to check with the building department for their requirements. Some communities allow gas shut off and sewer/water disconnect, which is the easiest and least expensive. Other communities require complete capping of some or all utilities with a demolition permit and all new utilities installed. This is a very expensive alternative.

7 STRUCTURE ELEVATION / RELOCATION

- **SLAB ON GRADE**
The slab on grade has two types of construction and therefore has two types of projects to elevate:
– **STRUCTURAL SLAB ON PILES** (*slab and grade beam footings poured at one time*)
These foundations typically have piles, usually wood, to support the foundation. Excavation exposes the piles under the foundation and helical or segmented block piles are driven next to the original piles. The grade beams are excavated at the site of lifting cribs. Crib jacks and slab support jacks are installed.
- **NON-STRUCTURAL SLAB** (*separate footing and slab*)

Sometimes, structural engineers will certify the original foundation is strong enough to support additional vertical walls or piers to set the building back down on. To elevate the building off of the original foundation, all furnishings need to be removed and stored. Carpeted or wood floors need to be removed. The lower four feet of drywall needs to be removed, along with lower kitchen cabinets, bathroom fixtures and cabinets. The entire building must have horizontal boards fastened to the vertical studs and steel lifting beams placed under the horizontal boards on cribs. Crib jacks and or toe jacks are installed.

• PIER AND BEAM

The cribs and structural steel are delivered to the site and the existing foundation, crawl space or basement is opened up to receive the steel. The cribbing is “bedded” into the ground in predetermined areas according to the new foundation design. Some communities require deeper crib bedding, so double check on their requirements. Next, the lifting steel is inserted under the building/wood frame and the lifting equipment is installed. Lift the building higher than the required height for foundation work. Lift off foundation and roll off to perform the foundation work.

8 FOUNDATION

A. Remove and rebuild the old foundation. Many older buildings have substandard foundation design and construction. These foundations need to be removed completely and a new foundation constructed to the plans design.

OR

B. Add to the old foundation. In some cases, the structural engineer design will allow the reuse of the existing foundation and the new elevated porting to be added.

9 LOWER HOME ONTO NEW / IMPROVED FOUNDATION

The relocated or elevated building is placed onto the new foundation. The building always needs to be strapped down to the new foundation in order to meet the building codes. Some property owners may wish to strap several or all of the vertical studs to improve high wind survivability. An added wind measure is to strap the wall studs to the rafters at the top plate/rafter connection.

10 RECONNECT UTILITIES, BUILD STAIRS / RAMPS

All of the utilities are reconnected and the final stairs, landings and any exterior porches are now built according to the construction plans.

11 FINISH CLEANING, CONCRETE WORK, SOD/GRASS

All final flat work/concrete slabs, walkways and driveways must be completed. The site is cleaned, salvaged vegetation shrubbery is installed, new shrubs installed and sod or grass seed is installed. A final cleaning and the final code inspection is completed to finish the job.
